

Inner part

Bleed: minimum 2 mm

Parts of your project that are designed up to the edge of the page need to be extended into bleed. This area is trimmed off during the manufacturing.

Open TrimBox:

148 x 210 mm

Margins: minimum 5 mm

It is recommended that no important texts or images are placed outside the inner margins set inside the TrimBox due to manufacturing tolerances.

Make sure to remove the layout template from your print file!
