

The diagram illustrates the layout for a business card. It features a central white area labeled 'Title'. This area is enclosed by a magenta border, which is the 'BleedBox'. Within this border, there is a smaller white area, the 'TrimBox', also outlined by a magenta border. Dimension lines with arrows indicate the sizes: the width of the BleedBox is 94 mm, the width of the TrimBox is 90 mm, the height of the BleedBox is 54 mm, and the height of the TrimBox is 50 mm. Text on the right side provides additional instructions regarding bleed, margins, and a warning to remove the layout template.

94 mm (BleedBox)

90 mm (TrimBox)

54 mm (BleedBox)

50 mm (TrimBox)

**Title**

**Bleed: minimum 2 mm**

Parts of your project that are designed up to the edge of the page need to be extended into bleed. This area is trimmed off during the manufacturing.

**Open TrimBox:** 90 x 50 mm

**Margins: minimum 5 mm**

It is recommended that no important texts or images are placed outside the inner margins set inside the TrimBox due to manufacturing tolerances.

**Make sure to remove the layout template from your print file!**

Business card | 90 x 50 mm | Landscape | Single-sided
