

The diagram shows a square label template with a magenta border. A black crosshair is centered on the page. Two horizontal dimension lines are shown: one spanning the width of the magenta border labeled '55 mm (BleedBox)' and another spanning the width of the inner white area labeled '50 mm (TrimBox)'. Similarly, two vertical dimension lines are shown: one spanning the height of the magenta border labeled '55 mm (BleedBox)' and another spanning the height of the inner white area labeled '50 mm (TrimBox)'.

55 mm (BleedBox)

50 mm (TrimBox)

Bleed: min. 3 mm

Parts of your project that are designed up to the edge of the page need to be extended into bleed. This area is trimmed during further processing.

TrimBox: 50×50 mm

Margins: min. 2 mm

It is recommended that no important texts or images are placed outside the inner margins set inside the TrimBox due to manufacturing tolerances.

— Cut contour = Final format

L Corner radius: min. 1 mm

**Make sure to remove the layout template from your print file!
The cut contour must remain in the print file.**
