

The diagram shows a circular label template. It features two concentric circles. The outer circle is magenta and represents the 'Cut contour'. The inner circle is black and represents the 'Trimline'. Two horizontal dimension lines with arrows at both ends are shown. The top line spans the width of the outer circle and is labeled 'Ø 50 mm (Bleedline)'. The bottom line spans the width of the inner circle and is labeled 'Ø 30 mm (Trimline)'.

Ø 50 mm (Bleedline)

Ø 30 mm (Trimline)

Bleed: min. 2 mm

Parts of your project that are designed up to the edge of the page need to be extended into bleed. This area is trimmed during further processing.

Trimline: Ø 30 mm

Margin: min. 2 mm

It is recommended that no important texts or images are placed outside the inner margin (see inside the Trimline) due to manufacturing tolerances.

— Cut contour = Final format

Please note to remove the layout template from your print file!
The cut contour must remain in the print file.

Labels (round) Ø 50 mm
