Back page

Bleed: minimum 3 mm

Parts of your project that are designed up to the edge of the page need to be extended into bleed. This area is cut off during the manufacturing.

Open TrimBox: 297 x 419,5 mm

Margins: minimum 4 mm

It is recommended that no important texts or images are placed outside the inner margins set inside the TrimBox as well as inside the area for spiral-binding due to manufacturing tolerances.

— Die cut

- - - Perforation / Creasing

Make sure to remove the layout template from your print file!
