Back

Title

Bleed: minimum 2 mm

Parts of your project that are designed up to the edge of the page need to be extended into bleed. This area is trimmed off during the manufacturing.

Open TrimBox: 100 x 90 mm

Margins: minimum 5 mm

It is recommended that no important texts or images are placed outside the inner margins set inside the TrimBox due to manufacturing tolerances.

Make sure to remove the layout template from your print file!!!

104 mm (BleedBox)

The diagram shows a rectangular layout with a magenta border. A vertical dashed line is positioned 50 mm from the left edge. Horizontal dimension lines with arrows indicate the width of the BleedBox (104 mm) and the TrimBox (100 mm). Vertical dimension lines with arrows indicate the height of the BleedBox (94 mm) and the TrimBox (90 mm). The area between the left edge and the dashed line is 50 mm wide.
