# Title

**Bleed: minimum 2 mm**

Parts of your project that are designed up to the edge of the page need to be extended into bleed. This area is trimmed off during the manufacturing.

**Open TrimBox:**

148 x 210 mm

**Margins: minimum 5 mm**

It is recommended that no important texts or images are placed outside the inner margins set inside the TrimBox due to manufacturing tolerances.

**Make sure to remove the layout template from your print file!**
