40mm (bleed)

Bleed: min. 3mm

Parts of your project that are designed up to the edge of the page need to be extended into bleed. This area is trimmed during further processing.

Trim Size: 60-90mm

Flargins: min. 2mm

It is recommended that no important texts or images are placed outside the inner margins and inside the Trim Size due to manufacturing tolerances.

— Cut line (final format)

Make sure to remove the layout template from your print file.
The convenient way to do this is the print file.

Trim Size: 60-90mm
