

Ø 104 mm (BleedBox)

Ø 100 mm (TrimBox)

Bleed: minimum 2 mm

Parts of your project that are designed up to the edge of the page need to be extended into bleed. This area is cut off during the manufacturing.

Open trimbox:

100 x 100 mm

Margins: minimum 3 mm

It is recommended that no important texts or images are placed outside the inner margins set inside the TrimBox as well as out of the folding lines due to manufacturing tolerances.

— Die cut

Make sure to remove the layout template
from your printing file!
