

152 mm (bleedbox)

The diagram illustrates the dimensions of an A5 paper layout. It features a large rectangle representing the paper. A horizontal line near the top is labeled '152 mm (bleedbox)', and a vertical line on the left is labeled '214 mm (bleedbox)'. Inside this, a slightly smaller horizontal line is labeled '148 mm (trimbox)', and a slightly smaller vertical line on the left is labeled '210 mm (trimbox)'. The central area is labeled 'Inner part'. To the right, there are three text blocks: 'Bleed: at least 2 mm', 'Open trimbox: 148 x 210 mm', and 'Safety distance: at least 5 mm'. At the bottom right, a pink box contains the text 'Make sure to remove the layout template from your print file!!!'. At the very bottom, a small line of text reads 'Notepad with cover | Inner part | A5 | Portrait | without punched holes | Single-sided'.

148 mm (trimbox)

Inner part

214 mm (bleedbox)

210 mm (trimbox)

Bleed: at least 2 mm

Elements that extend to the edge of the page require a bleed addition. This area is trimmed during further processing.

Open trimbox:

148 x 210 mm

Safety distance: at least 5 mm

Important text and image elements should have a safety distance to the final format and to the cutting or creasing lines due to production tolerances.

Make sure to remove the layout template from your print file!!!
