# Front

## **Bleed: minimum 2 mm**

Parts of your project that are designed up to the edge of the page need to be extended into bleed. This area is cut off during the manufacturing.

## **Open TrimBox:**

594 x 420 mm

## **Margins: minimum 5 mm**

It is recommended that no important texts or images are placed outside the inner margins set inside the TrimBox as well as out of the folding lines due to manufacturing tolerances.

## **Area covered by protective strip: approx. 47 mm (X)**

**Make sure to remove the  
template from your print file!**

X = 47 mm
